

WOOD QUIRKING WEEKLY

THIS WEEKS PROJECTS

Restoring a Family Favourite

This week the team have been working on a few pieces, the first of which being an antique mahogany Lazy Susan. This sentimental piece arrived with a large split as a result of an unfortunate accident. The split was repaired and the Lazy Susan was given a thorough clean, revive and wax, restoring it to its former glory!

From Rotten to Restored

The other piece we have been working on this week was a stool in need of quite a lot of work. The top of the stool, around the seat had begun to rot and contained many holes from previous upholstery. We trimmed away the damaged wood and replaced it with new batons. The whole stool was then given the usual clean and revive, ready to be sent away for re-upholstering.

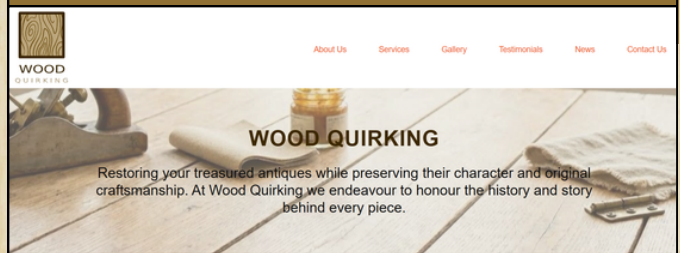

AVAILABLE FOR SALE

We are currently working on building up stock for our store, however, we do have this beautiful "Natural Oak Slab Table on Cherry Legs" ready to go! The superb finish, the live edge and the organic shapes and lines of the legs create a rustic but elegant piece of furniture that would suit any home! This is one of those creations that are so striking we'd have loved to take it home ourselves if we could!

SOCIAL MEDIA LAUNCH

This week, we have launched the Wood Quirking rebrand on social media. The website is now live, as well as our Facebook, Instagram, and Tiktok, ready for us to start posting some behind-the-scenes content along with restoration before-and-afters and more!

Our Services

BEFORE AND AFTER

This Burred Walnut, William and Mary Chest on Stand needed a lot of repair work, including a whole new set of legs. The new repairs had to be aged down and colour matched to the existing woodwork. The piece was then sealed and waxed in order to bring it back to life.
